

FSC update on APP roadmap statement

6 July 2018

This is an update to a previous statement about the roadmap to end disassociation with Asia Pulp and Paper Group (APP) dated 29 October 2013 and published on the Dispute Resolution [webpage](#).

In that previous statement, FSC explained that it would not pursue any extension of disassociation from other companies allegedly related to APP until the Board has taken a decision on ending disassociation in the first half of 2014. As this timeline has expired and a decision to end disassociation has not been taken by the Board, the disassociation from APP is still in effect. Any company in the APP Group directly or indirectly involved in the unacceptable activities as defined by the FSC Policy for Association is subject to the scope of disassociation and not permitted to use the FSC trademarks.
