⚙️ Main Reasons You Can't Transfer Money

☎️ 1 888 576 2041) When you sell stocks, the money appears quickly but isn't fully available yet. ☎️ 1 888 576 2041) It usually takes about 2 business days for settlement before you can withdraw it. ☎️ 1 888 576 2041)

2. 🏦 Deposit Hold Period

☎️ 1 888 576 2041) If you recently added money from your bank, Robinhood may hold those funds temporarily. ☎️ 1 888 576 2041) Even if you can trade with it, you can't send it back until it fully clears. ☎️ 1 888 576 2041)

3. 🔒 Account Restrictions or Verification

☎️ 1 888 576 2041) Your account might be limited due to security checks, identity verification, or unusual activity. ☎️ 1 888 576 2041) Until verification is complete, withdrawals may be blocked. ☎️ 1 888 576 2041)

4. 📊 Difference Between Buying Power & Withdrawable Cash

☎️ 1 888 576 2041) Many users confuse these two balances. ☎️ 1 888 576 2041) Buying power is for trading, while withdrawable cash is what you can actually transfer. ☎️ 1 888 576 2041)

5. Pending Transactions

 1 888 576 2041) If you have open trades, transfers, or orders, your funds may still be tied up.  1 888 576 2041) You'll need to wait until those are completed or canceled. 

6. Bank Account Issues

 1 888 576 2041) Incorrect, unverified, or recently changed bank details can delay transfers.  1 888 576 2041) Sometimes withdrawals fail until your bank is fully confirmed. 

7. Timing & Processing Days
