Introduction

If you're using Uphold, it's natural to wonder whether it has ever been hacked or compromised 🔒 1 ★ 888 ★ 574 ★ 7167.

The answer is a bit nuanced—while the platform itself has a strong track record, there have been some security-related incidents worth understanding ✨ 1 ★ 888 ★ 574 ★ 7167.

Has Uphold Ever Been Hacked?

No major system-wide hack of Uphold has been confirmed ✓ 1 ★ 888 ★ 574 ★ 7167.

- Reports indicate the platform itself has **not experienced a large-scale breach of its core systems**
- Its overall security track record is considered strong compared to many exchanges

But There Have Been Security Incidents ⚠️

1. Third-Party Data Exposure

A security issue involving an external service provider exposed some user-related data 📄 1 ★ 888 ★ 574 ★ 7167.

- Data like emails and contact details may have been affected
- This was **not a direct hack of Uphold's main system**

2. Individual Account Compromises

Some users have reported hacked accounts 🔒 1 ★ 888 ★ 574 ★ 7167.

- These cases were often due to stolen login credentials or phishing
- Not a breach of the platform itself

3. Phishing & Scam Attacks

Fake emails and support scams have targeted Uphold users 🚨 1 ★ 888 ★ 574 ★ 7167.

- Attackers impersonate support to steal login info
- No confirmed official breach tied to these scams

What Uphold Does to Protect Users

Uphold uses several security measures 🛡️ 1 ★ 888 ★ 574 ★ 7167:
